Regarding your letter about Kyiv State Academy of Decorative and Applied Arts

Thank you very much for your appeal to send aid to Kyiv State Academy of Decorative and Applied Arts. We are extremely saddened to hear that another cultural building in Ukraine has been damaged due to Russia's war of aggression. Our thoughts are with you at this difficult time, and we are doing everything we can at the national level to end this war.

The organization of humanitarian aid to Ukraine takes place through specific organizations and platforms in Estonia and the European Union. We know that they have already been informed of the incident and are already working on organizing assistance. We are convinced that the relevant organizations can direct the aid in the most precise and optimal way exactly where it is needed, without creating confusion and duplication.

We wish you all the best, success and endurance.

Yours sincerely,

Hannus Luure
