Dear Jaanus,

Please see attached the requested documents.

The crew seemed happy and the Captain was really welcoming and polite. As he explained, they are under a new German owner since June 2023. If I understood correctly they were headed to dry dock in Yalova, Turkey, after Barcelona.

General conditions on board seemed good and the vessel was in good condition, no seafarers expressed any concern but excess overtime is not being paid as they understand that the 103 includes all hours, except that some do a bit more than those included in the contract (between 5 – 10 hours of excess OT a month). Also, there is a staggering difference in the salary paid to the 2 OS on board, the Polish OS gets paid EUR 700 more, taking into account that the INDONESION OS even has a seniority bonus.

I look forward to your comments in order to know what the next steps are.

Best regards,

Marc Martí
