MINISTRY OF SCIENCE, TECHNOLOGICAL
DEVELOPMENT AND INNOVATION
Official
Belgrade, 22-26 Nemanjina St.

Date: 18.07.2024.

- H.E. Ms. Kristina Kallas -
Minister for Education and Research, Republic of Estonia

Your Excellency, Ms. Kallas,

It is my honour to extend an invitation to the Global Partnership on Artificial Intelligence (GPAI) Annual Summit, hosted by the Government of the Republic of Serbia in Belgrade on 3-4 December 2024. This exciting event will convene political leaders, business executives, researchers, and AI experts from around the world to explore and discuss the latest advancements, trends, and challenges in the field of artificial intelligence.

The Summit will include a meeting of the GPAI Ministerial Council, bringing together ministerial representatives of all GPAI Members. The Summit provides a critical opportunity for GPAI member countries to engage in shaping the future of AI on a global scale. Your participation will not only reinforce strong international relations, but also contribute to fruitful discussions on potential cooperation in AI.

We expect this summit to foster collaboration among different countries and accelerate the development of responsible AI applications that benefit society.

We eagerly anticipate welcoming you to Belgrade.

Yours sincerely,

Jelena Begović, PhD

Minister of Science, Technological
Development and Innovation
