Tallinn Digital Summit

Dear Minister Teo,

Singapore has been a trustworthy partner for Estonia and we really appreciate every opportunity to learn from each other's best practices. Please allow me to express my gratitude for your kind invitation to ATxSG 2024. Unfortunately, I was not able to participate this year but I am sure we will have more occasions to meet in the future.

We are currently preparing for the next Tallinn Digital Summit to take place on 19-20 November in Estonia. I would like to propose to have a meeting at the Summit, if your schedule allows.

Tallinn Digital Summit, the annual event hosted by the Estonian Prime Minister, will gather leaders from the world's most digitally innovative countries, international organisations, academia and the private sector, all of whom play a crucial role in addressing the challenges and shaping the future of digital innovation. This year's event will build upon the foundation laid by previous summits and focus on "Securing Our Digital Tomorrow" in the wake of ongoing and upcoming geopolitical and technological shifts to foster a secure, prosperous, and sustainable digital environment. These challenges also bring inherent opportunities where the combined talent, investments, and markets of developed and emerging democracies not only outpace and out-innovate autocracies but also shape our digital landscapes and chart the course for pioneering digital security strategies for today, tomorrow, and beyond.

Please join us in Tallinn to be part of this crucial conversation. Official Invitation Letter will follow nearer the time.

With best regards,

Tiit Riisalo
Minister of Economic Affairs and Information Technology
