Dear General

Please let me pass you my gratitude for your kind words towards our people and field in supporting Defence Forces of Ukraine.

We appreciate you for turning to the Estonian Military Academy with proposal of co-operation.

Sadly, at this point our academy is not able to take up a new co-operation project with military unit of Ukrainian Defence Forces as our academy is a small institution and already has an ongoing project with the Military Institute of Armoured Forces of National Technical University „Kharkiv Polytechnic Institute“.

I am sorry to say that and I hope there finds a co-operation partner for your project.

Best regards

Vahur Karus
Brigadier General
Commandant of the Estonian Military Academy
