

Technical drawing of a roof truss system. The drawing shows a side elevation of the truss structure with various dimensions and details.

Dimensions:

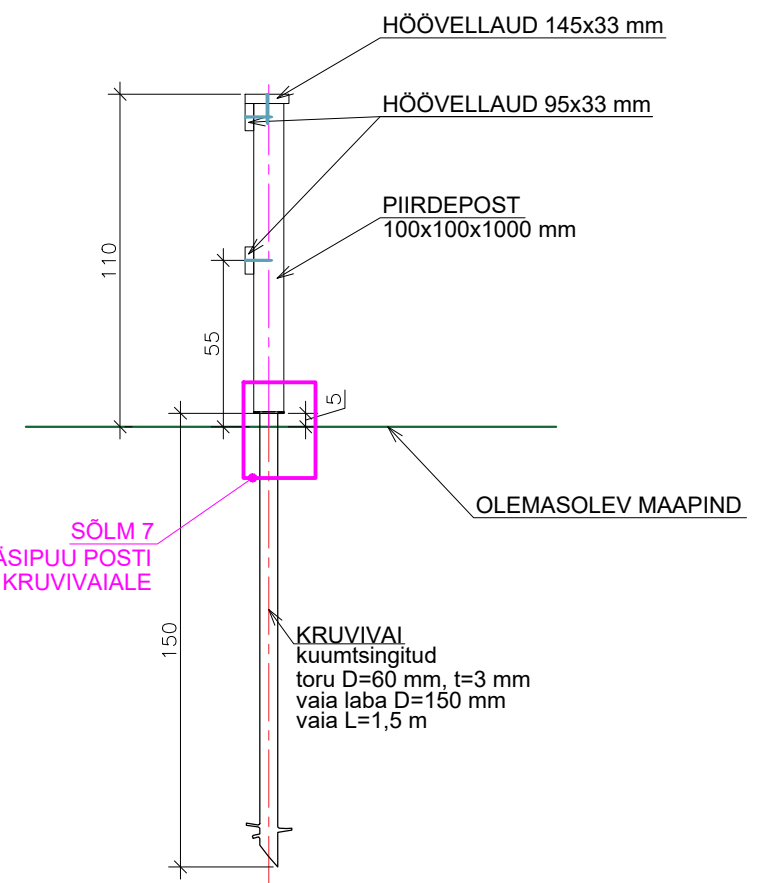

- Horizontal dimensions (top): 120, 370, 120, 120.
- Vertical dimensions (right): 110, 145.

Structural Details:

- The truss consists of a main horizontal beam (top chord) and a diagonal member (bottom chord).
- Vertical supports are shown at the bottom, with a red dashed line indicating the centerline of the support.
- A green line represents the roof slope, starting from the top left and extending downwards.
- A pink rectangle highlights a detail of the roof slope and support connection.
- Blue dots are marked on the horizontal beam.
- Black lines represent the structural members and supports.

Diagram illustrating the connection of a vertical post (SÕLM 7) to a horizontal post (SÕLM 8) using a horizontal post (SÕLM 9). The diagram shows a cross-section of a tree trunk with a vertical post (SÕLM 7) and a horizontal post (SÕLM 8) connected by a horizontal post (SÕLM 9). The diagram is labeled "PIIRDE-KÄSIPUU POSTI KINNITUS KRUUVIVAIALE".
