Subject: Energy Community Annual Implementation Report

EXCELLENCY,

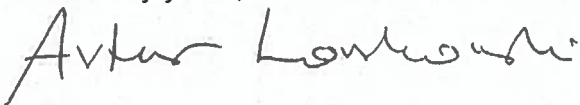

The Energy Community is navigating a critical moment of change. As the global push toward decarbonisation accelerates, our nine Contracting Parties are working to transform their energy sectors, tackling reforms, and striving to align with the Energy Community acquis.

The 2024 Implementation Report captures the progress made, the challenges encountered, and the resilience demonstrated across the region as we move toward a sustainable and integrated energy future. 2024 also marks a year of renewed focus on energy infrastructure investments, as well as reforms to spur growth and accelerated integration with the EU.

What remains constant is our commitment to providing a fair assessment of each Contracting Party's journey toward full integration into Energy Europe. It is my pleasure to share with you the Secretariat's Annual Implementation Report 2024, which provides a detailed overview of acquis implementation in nine Energy Community Contracting Parties.

You can access the report through the following link:
<https://www.energy-community.org/implementation/report.html>

I look forward to continuing our cooperation in the New Year 2025.
Sincerely yours,

Artur Lorkowski
Director
Energy Community Secretariat
