Proposal for cooperation

Dear Heidi Rytky

Estonian Road Museum has a suggestion to Mobilia. The idea came thanks to Mikko's and Anni's visit in April.

Our museum is applying for Erasmus+ grant (small-scale partnerships in school education – approximately 60000 euros). This application is connected with traffic education programme. We decided to create a new one and thought about cooperation with your museum. As we remember you also planned to turn more attention to traffic education. The programme lasts 24 months.

And our question is - do you agree to be our foreign partner not only during these 24 months but also during the project writing period from June to the end of September?

Don't hesitate to ask more information. The project managers are Kerle Kadak kerle.kadak@transpordiamet.ee +372 53302641 and Neidi Ulst neidi.ulst@transpordiamet.ee +3725117440.

Sincerely yours

Rita Valge
Director of the Estonian Road Museum
