Control measures applied	Re-inspection date	Comments regarding conditions found
Control measures indicated were applied on the date below		

Name and designation of issuing officer: Ramona Köhler (Port Health Inspector)

Signature / seal:

Date 12th February 2026

Validity: 6 months until 12th August 2026

* please delete where inapplicable

1 (a) Evidence of infection or contamination, including vectors in all stages of growth; animal reservoirs for vectors; rodents or other species that could carry human disease, microbiological, chemical and other risks to human health; signs of inadequate sanitary measures.

(b) Information concerning any human cases (to be included in the Maritime Declaration of Health).

2 Results from samples taken on board. Analysis to be provided to ship's master by most expedient means and, if re-inspection is required, to the next appropriate port of call coinciding with the re-inspection date specified in this certificate. Sanitation Control Exemption Certificates and Sanitation Control Certificates are valid for a maximum of six months, but the validity period may be extended by one month if inspection cannot be carried out at the port and there is no evidence of infection or contamination.

Attachment to Ship Sanitation Control Exemption Certificate / ~~Attachment to Ship Sanitation Control Certificate*~~
