

SAVE THE DATE

The European Space Agency (ESA) will soon invite you to celebrate with us the
inauguration of ESA's fourth Deep Space Antenna
in **New Norcia**, Western Australia.

Delivered on schedule, this engineering masterpiece is a result of the outstanding capabilities of ESA, Industry, and the excellent cooperation with our Australian partners. This strategic milestone reinforces ESA's deep-space communication capabilities, maximising the return of our missions' most valuable asset, scientific data.

The event will bring together leading representatives from ESA, its Member States, Australia, international stakeholders, industry and media.

We kindly ask you to save the date!
