State Aid SA.104442(2024/N) – Estonia

Important Project of Common European Interest
on Hydrogen on Mobility &
Transport (IPCEI ‘Hy2Move’) – RRF

Dear Sir/Madam,

Regarding Commission’s decision from 28th of May 2024 of the above mentioned case, Estonian authorities inform that, after having consulted with also the applicant concerned, the state aid decision SA.104442(2024/N) does not include information that should be omitted from the non-confidential public version of the decision.

Estonian authorities would ask Commission to replace the exact numbers of the eligible costs, funding gaps and State aid (discounted) in the recital 220 by the ranges as proposed by the Commission in their letter.

(220) The main parameters for determining the State aid level are expressed in the Table 7 to Table 14 for all projects in nominal and in discounted (i.e. net present value (‘NPV’)) terms.

Undertaking	EUR million			
	Eligible costs (nominal)	Funding Gap (discounted)	State aid (nominal)	State aid (discounted)
Skeleton	[20-30]	[10-20]	18,77	[10-20]

With best regards,

(signed digitally)

Sandra Särav
Deputy Secretary General for Economics and Innovation
