

The diagram illustrates the layers of a road cross-section from top to bottom:

- planeeringuala**: The top layer, shown as a pink rectangle with dashed lines, representing the planning area.
- juurdepääs krundile**: The layer below the planning area, shown as a red triangle pointing upwards, representing access to the plot.
- planeeritav hoonestusala**: The layer below the access, shown as an orange rectangle with a cross-hatch pattern, representing the planned building area.
- ol.olev hoone**: The layer below the planned building area, shown as a solid grey rectangle, representing an existing building.
- ol.olev tee**: The layer below the existing building, shown as a dashed grey rectangle, representing an existing road.
- transpordi liikumissuunad**: The layer below the existing road, shown as two grey arrows pointing in opposite directions, representing transport movement directions.
- jalakäijate liikumine**: The bottom layer, shown as a dashed purple line, representing pedestrian movement.
