On behalf of AmCham Estonia, I am pleased to invite you to The Transatlantic AI Advantage: Estonia, Europe and the United States Building the AI Economy Together, a small, invitation-only roundtable on 5 November, from 14:10 to 15:10, in Tallinn, held as a side event of the Tallinn Digital Summit 2026.

The discussion will bring together business representatives and senior Estonian, European and U.S. policymakers to explore how American innovation, Estonias digital leadership and European market scale can strengthen transatlantic AI cooperation, competitiveness and investment. Interested participants include representatives from Amazon Web Services, Google, Palo Alto Networks, Meta, Microsoft, Nortal and AmCham Estonia. We are also inviting representatives from the U.S. Embassy in Tallinn and Ministry of Justice and Digital Affairs.

We would be delighted if you or a representative could join us.

Please let us know who would be available to attend.

Heade soovidega / Kind regards,
