Deer Maarja,

I am writing to inquire whether it would be possible to obtain statistical information regarding Brazilian citizens currently present in Estonia.

Specifically, I would like to know:

1. The current number of Brazilian citizens holding a valid residence permit in Estonia. If available, I would appreciate any further breakdown of this group, such as by gender and age range.
2. The number of Brazilian citizens who entered Estonia in 2025 but do not hold residence status.
3. Any other relevant information concerning Brazilian citizens, including, if applicable, data related to border control procedures, non-admittance, or similar matters.

I would be grateful for any information you may be able to share.

Thank you very much for your time and assistance.

Best regards,

Vinícius Betsur Alvarenga Fernandes
