

## Invitation for an interview with the Horizon Europe project GS4S

Dear representatives of the Ministry of Economic Affairs and Communications,

As a team of researchers from Radboud University in The Netherlands, we are reaching out to you with an **invitation to participate in our EU-funded Horizon Europe project 'Global Strategy for skills, migration and development (GS4S).'** The project is led by professor Tesseltje de Lange, director of the Centre for Migration Law at Radboud University.

Over the next three years, GS4S consortium will aim to develop new knowledge and design practical tools for addressing skills shortages in Digital/Care/Construction sectors in six regions (EU, EEA, Western Balkan, Middle East and Northern Africa, West Africa, and South/South-East Asia). **As part of our interdisciplinary research, we are conducting policy interviews with representatives of academia, CSOs, public authorities and the private sector in Estonia.** Our research explores several topics: (i) skills shortages in selected sectors, (ii) the relationship between different public policies or initiatives in areas of migration, education and development in Estonia (in the three sectors) and (iii) active labor market policies (ALMPs).

**We would like to kindly invite a representative from the Ministry to contribute to our research as an expert interviewee.** We wish to learn more from you about topics mentioned above, and we believe it is important to integrate your perspective into our findings. If necessary, we are also happy to talk to two of your representatives.

The interview would be held online with members of the research team from Radboud University, and it would last no longer than 1 hour. Before the interview, we would provide additional privacy/consent-related information, and a detailed interview guide with **questions adapted to the specific expertise of the interviewee.** Should you be available, we are free to schedule the call in the coming weeks.

Additional details about the project are available on our [website](#), as well as in the flyer you received together with this invitation. Should you have any questions, please reach out to Colleen Boland ([colleen.boland@ru.nl](mailto:colleen.boland@ru.nl)) or Ksenija Ivanović ([ksenija.ivanovic@ru.nl](mailto:ksenija.ivanovic@ru.nl)).

Thank you and kind regards,

Radboud University researchers on the GS4S project
