**Tug MARS (IMO 9222417)**

To Whom it May Concern,

Keel of tug MARS (IMO 9222417) was laid on 22.10.1999.

At that time requirement to have device to indicate speed through the water was applicable to the ships of 500 gross tons and above. Speed and distance measuring device to indicate speed and distance through the water was required from the ships of 300 GT and above from 01.07.2002 and it is not a retroactive requirement.

Therefore tug MARS (IMO 9222417) is not required to have a device measuring speed and distance through the water.

Yours sincerely
