## «International Fund for the Accreditation of Foreign Applicants in Universities of Ukraine»

Ministry of Economic Affairs and Communications of the Republic of Estonia

Dear Sirs!

We are an international charity foundation (location, Bulgaria, Nessebar, Sunny Beach), we help Ukrainian, Palestinian, Syrian refugees to temporarily settle in Bulgaria.

The hotels we work with accommodate about 1,000 people, there are about 80,000 Ukrainian refugees in Bulgaria.

As the political situation in Europe and the war in Ukraine show, which NATO Secretary General Stoltenberg openly spoke about at a meeting with Ukrainian President Volodymyr Zelensky, stating that Europe and NATO must be prepared for the war to drag on for ten years.

People need to somehow survive all these long years.

There is a catastrophic shortage of jobs in Bulgaria.

Our appeal to you is the following - to open here your subsidiary or branch. To produce the same products that you are currently producing. Perhaps, to produce other products that are more in demand. We are not talking only about the sewing industry, the enterprise may also be from another sphere of production of goods, from the number of refugees that exists today and may still increase, we do not see any problems with the selection of personnel. Even a production workshop for 30-50 jobs will be a big step forward in providing people with jobs. This will be a pilot project in such a very necessary matter, to which, perhaps, we hope, others will also join.

We are ready for a more detailed and specific discussion of the proposal.

Hoping for understanding and support

P.S.

Under the agreement, the fund is ready to take on the processing of all necessary permits, certificates, licenses, personnel issues, selection of office and production premises, as well as the sale of manufactured products.

With sincere respect to You

Director "IFAFUAU"

V. Khachaturov
