

## 17TH INTERNATIONAL SOLAREX ISTANBUL SOLAR ENERGY TECHNOLOGIES & STORAGE FAIR – FINAL REPORT

Held between April 10–12, 2025 at Istanbul Expo Center, across halls 2, 4, 5, 6, 7, and 8, Solarex Istanbul concluded successfully.

As Türkiye's first and only specialized fair in its field, Solarex Istanbul International Solar Energy Technologies & Storage Fair was completed with great success. A total of **403** exhibitors — **284** domestic and **119** international — took part in the fair, which was attended by **45,627** visitors, making it a key meeting point for professionals.

The fair's success was largely driven by the sector's strong ownership of the event, supported by the ambitions of solar energy producers in Türkiye to improve quality, grow as global brands, and expand into new markets, along with Voli Fuar's proven expertise in specialized exhibitions.

Türkiye continues to advance on a global scale, driven by its rapidly growing population, strategic geographical position, and export-oriented advantages. One of the most dynamic and rapidly mobilizing sectors in our country is undoubtedly the solar energy industry. Recent developments, innovations, and exemplary solidarity within the solar energy sector have positively influenced its growth.

Industry stakeholders — including manufacturers, consumers, procurement specialists, implementers, and domestic and international representatives — all gathered at Solarex Istanbul.

Please find attached the activity report and statistical results related to the fair for your information.

Kind regards,

Voli Fuar Hizmetleri A.Ş.

## **GENERAL OVERVIEW OF THE 17TH INTERNATIONAL SOLAREX ISTANBUL SOLAR ENERGY TECHNOLOGIES & STORAGE FAIR**

### **FAIR CONTACT DATABASE:**

Our team entered a period of intensive preparation to ensure the successful execution of the Solar Energy Fair. As a sectoral publisher as well, we had no difficulty accessing the necessary information. Our publishing approach — which embraces the entire industry through our magazines — has been one of our biggest strengths in organizing this fair.

### **PROMOTION OF THE FAIR:**

Some of the promotional activities for Solarex Istanbul included the following:

Numerous magazines, newspapers, TV channels, and websites supported the fair through dedicated coverage. These publications enabled us to reach professionals across Türkiye.

Ads for the fair were also placed in the industry's most prominent magazines. Announcements were shared with thousands through relevant institutions, and news about the fair appeared on many websites as well as in national and local media outlets.

A total of 300,000 printed invitations were distributed as fair invites. Of these, 250,000 were delivered through Voli Fuar's outreach efforts, with the remainder distributed by exhibitors to their own customers. Face-to-face marketing activities were carried out, and invitations were sent directly to participants.

### **STATISTICS: VISITORS & EXHIBITORS**

Total Number of Visitors at Solarex Istanbul: **45,627**

#### **Daily Visitor Breakdown:**

1. Day: 14,492
2. Day: 19,305
3. Day: 11,830

**TOTAL: 45,627**

Number of International Visitors: 9,226

Number of Domestic Visitors: 36,401

Number of Domestic Exhibitors: 284

Number of International Exhibitors: 119

Total Number of Exhibitors: 403

#### EXHIBITING COUNTRIES:

Germany, China, India, Italy, United Arab Emirates, Iran

#### **VISITOR PROFILE**

The fair welcomed a wide range of attendees including private sector professionals, policymakers, representatives from public institutions, academics, journalists, sales and marketing executives, technical consultants, experts, engineers, senior executives, commercial buyers from various sectors seeking to develop projects, businesspeople, investors, industrial procurement managers and officials, agents and distributors, companies seeking distributorship or dealership opportunities, chambers of commerce, NGOs, associations, and sectoral institutions.

#### **EXHIBITOR PRODUCT GROUPS**

##### Photovoltaics

Cells, modules, inverters, measurement and control technologies, chargers, batteries, cables, connectors, junction boxes, solar tracking systems, mounting equipment, building-integrated solutions (BIPV), stand-alone systems, solar power plants, energy storage systems, EPC companies, gel batteries, solar cables, turnkey on-grid/off-grid systems, solar pumps, cogeneration, voltage regulators, solar lighting, power supplies, solar-powered consumer products, wafers, materials and manufacturing equipment.

##### Thermal Technologies

Absorbers, coatings, collectors, fittings, expansion tanks, degassers, heat transfer fluids, measurement and control technologies, mounting systems, storage tanks, manufacturing technologies and equipment, ventilation and cooling systems, building-integrated solutions, thermal processing, and solar thermal power plants.

### Other Categories

Research and development centers, testing institutes, industry media and publishers, educational institutions, financing services, event organizers, associations, insurance providers, universities, and consultants.
