Teema: HPV gender-neutral vaccination program in Estonia

Hello,

I hope this message finds you well. My name is Leonidas Galeridis, and I serve as the Policy and Research Officer at the European Parliamentary Forum for Sexual and Reproductive Rights (EPF). At EPF, we are dedicated to advancing sexual and reproductive health and rights across Europe, and we closely monitor vaccination programs, including those for HPV.

I would like to inquire whether the Ministry of Health in Estonia currently includes boys in the national HPV vaccination program. We are particularly interested in understanding the scope of the vaccination program and any recent updates or expansions, as part of our ongoing research on gender-neutral vaccination policies across Europe.

Thank you in advance for your time, and I look forward to your response.

Best regards,

Leonidas Galeridis  
Policy and Research Officer
