Dear Sir or Madam,

As introduced in the official letter attached, the European Commission, Directorate-General for Regional and Urban Policy (DG REGIO) has launched the **Assessment of administrative costs and administrative burden in the management of the Common Provisions Regulation funds 2021–2027**. The results will be used in the elaboration of the post-2027 programming period.

Ramboll Management Consulting, in cooperation with Ismeri Europa and 4Front, have been contracted to carry out the study.

Your role, as key contact points of programme authorities responsible for the implementation of CPR funds, is crucial in achieving the study's objectives. Your cooperation will be extremely appreciated and will **participate in the making of future regulations better tailored to the needs** of programme authorities and beneficiaries.

Key points of the study

- This study evaluates the administrative costs and burdens of **all eight CPR funds** across every Member State.
- Its main goal is to **revise existing baselines** for these costs and **establish new ones** where they don't exist.
- It will check if past estimations on administrative costs and savings were accurate and help in planning post-2027 Funds, and it will examine national and regional regulatory costs beyond EU legislation as well as **digitalisation levels** and **best practices**.
- Data collection will involve programme authorities and beneficiaries through a **survey** and, where applicable, further **interviews**.

You will shortly be contacted by a member of the consortium with further information on your individual participation.

We thank you very much for your time and future support.

Kind regards

Emilia Sandri
