Letter of Support (CERV-2026-DAPHNE)

The Estonian Social Insurance Board is pleased to support the project proposal submitted by the Estonian Chamber of Disabled People under the CERV DAPHNE programme.

The project aims to prevent violence against women and children with disabilities, with particular attention to the abuse of dependency relationships, coercive control, and sexual and cyber violence. We particularly value its focus on improving violence prevention and access to appropriate support services.

These objectives are closely aligned with our work in supporting victims of gender-based and domestic violence and developing victim support services in Estonia.

If the project is funded, we are willing to support its implementation as an associated partner, where possible and appropriate. Any specific contribution would be subject to separate arrangements and our available resources.

Our intended participation is non-financial and does not involve a commitment to provide co-funding.

Yours sincerely,

Maret Maripuu
peadirektor
