Mr. Martin Lengi
Director of Strategic Planning Division
Transport Administration

Dear Mr. Martin Lengi,

We would like to bring to your kind attention to the fact that, due to the absence of information regarding the Financial Lessee on the Vehicle Registration Certificates, the Turkish plated vehicles have encountered certain issues in many European countries during roadside checks such as heavy fines and the vehicle being towed away. The relevant Turkish authorities have introduced the following change to prevent such issues.

As of 10 June 2026, information relating to the "Financial Lessee" has been included in the "Z.1 Holder of Rights and Interests in the Vehicle" section of the Vehicle Registration Certificates issued by the Republic of Türkiye. A copy of vehicle registration certificate, with the relevant section highlighted, is attached herewith.

We would appreciate your assistance in forwarding the information mentioned above to the relevant authorities for consideration.

With kindest regards.

Sibel SEYRAN
First Secretary
