**Pension transfers between Estonia  
and the ECB**

Dear Sandrine Roussel

Thank you for your follow-up letter and for the detailed clarification regarding the European Central Bank's distinct legal status and its independent pension scheme. We appreciate you taking the time to explain this context.

We understand your position and the need for a formal discussion to ensure full alignment between our respective systems. While our national framework is designed to facilitate pension transfers with EU institutions, we appreciate your proposal for a meeting to address the specificities of the ECB's pension arrangements.

We have also consulted with the Estonian Social Insurance Board, and we are both pleased to accept your invitation. A dedicated discussion would be a valuable step to ensure a clear and mutual understanding for all parties involved. The timeframe you suggested in early 2026 is agreeable to us.

We look forward to a constructive dialogue and our future cooperation.

Yours sincerely,

Kristiina Selgis  
Head of Department of Benefits and Pension  
Policy
