Study visit to Estonia

Dear Mr Agyefi,

We are delighted for your interest towards Estonian SOE reforms and current governance. During the past year we have had two similar meetings with delegations from other countries learning Estonian SOE landscape, but these meetings have been no longer than 2 hours. Therefore, we kindly ask you to consider a shorter visit instead of the proposed 3-day study visit or even a videocall over TEAMS or similar technical solution.

Concerning the timing of the visit or call, period from June to August is typically time for vacations in Estonia, and we may find it difficult to have the stakeholder representatives and officials available during that time. May we suggest a visit in September or later, the exact time can be proposed by Ghanaian delegation.

Yours sincerely,

Kaur Kajak
Deputy Secretary-General for
Public Governance Policy
