## Invitation to speak at The Parliament Tech, Digital and AI Summit 2025

Dear Deputy Secretary General Särav-Tammus,

It is my pleasure to officially invite you to speak at **The Parliament's Tech, Digital and AI Summit 2025**

The event will take place on **Wednesday, 19 February 2025 from 13h30 – 18h00 CET** at the **Renaissance Brussels Hotel** in Rue du Parnasse 19, 1050 Brussels, Belgium. Please find an always up to date version of the programme [here](#).

The half-day flagship summit will gather over 100 influential high-level stakeholders from the tech industry across the European Union to tackle critical and timely dossiers including competitiveness, tech sovereignty and preserving citizens' rights. The goal is to facilitate concrete policy recommendations for the upcoming EU mandate.

We are honoured to invite you to take stage for a 15-minute one-to-one on-stage interview with a senior member of our editorial team **starting at 13h40 - 13h55 CET** discussing your achievements in the Estonian government and showcase successful case studies, inspiring the EU digital progress.

Should the timing not fit your agenda or should you prefer to partake in one of the panels, we are most happy to accommodate the request and provide further details.

We hope that you will join us on this important occasion.

Yours sincerely,

Augusta Ramaccioni  
Director of programmes and operations
