Subject: Research project “Education and training in the field of de-escalation”

Dear Sir or Madam,

In February 2022 I kindly requested your help on a relevant research project regarding training in the field of de-escalation in Europe. This topic is a part of our research project **AMBOSafe** “Attacks on employees and staff of organizations with security tasks” (www.ambosafe.de). AMBOSafe is a nationwide study on violence against first responders and emergency personnel funded by the German Federal Ministry of Education and Research (BMBF).

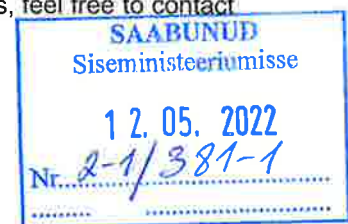

Many countries already decided to take part in this research project. Unfortunately, I have not received an answer from your country. Since I would like to get a complete picture with as much data as possible, I would like to ask you again for your support. I have therefore added the questionnaire again as attachment no.1. We kindly ask you to return the answered questionnaire to us by the end of June 2022 (the address is printed on the questionnaire).

If you cannot or do not want to participate or if you are not the right contact person, please let me know. For this purpose, I kindly ask you to fill out attachment no. 2 and send it back to the given address.

Thank you very much for your support! If there are any further questions, **feel free to contact us!**

Kind regards,

Prof. Dr. Clemens Lorei
