Estonian Ministry of Economy and Communications

Subject: Invitation to SolarEX Istanbul – 18th International Solar Energy Technologies & Energy Storage Exhibition

We have been closely following with great appreciation the long-standing contributions of the Estonian Ministry of Economy and Communications in strengthening the commercial and cultural relations between the Estonia and the Republic of Türkiye. In this regard, we would like to extend our sincere gratitude, on behalf of our organization, for your continued efforts and wish you every success in your future endeavors.

As distinguished leaders of global companies operating in the fields of Solar Energy Technologies and Energy Storage, we are pleased to invite you to the 18th SolarEX Istanbul International Solar Energy Technologies & Energy Storage Exhibition, recognized as the third largest solar energy exhibition in the world.

Organized by Voli Fair Services Inc., with the support of the Republic of Türkiye Ministry of Trade, SolarEX Istanbul will be held on 8–10 April 2026 at the Istanbul Expo Center. The exhibition brings together national and international industry professionals active in solar energy, energy storage, and sustainable technologies, and stands among the most significant sector-specific exhibitions worldwide.

Bringing together the world's leading brands in solar energy technologies and energy storage—renowned for their manufacturing expertise, extensive sales networks, and innovative product portfolios—SolarEX Istanbul will host more than 400 exhibitors and professional investors from over 100 countries, welcoming thousands of global brands.

In addition to the exhibition, SolarEX Istanbul offers unique opportunities through its concurrently organized international conference sessions, focusing on global market investments and sustainability.

We would be honored to welcome the Estonian Ministry of Economy and Communications of the Estonia and its delegation to SolarEX Istanbul and believe your participation will create valuable opportunities for international cooperation.

Yours sincerely,
Yasemin Terle
SolarEX Istanbul
