Teema: Tobacco Act 2021

Tähelepanu! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu saatja korral palume linke ja faile mitte avada. Dear Sir or Madam,

My name is Kseniia, Im a lawyer for a tobacco company (importer of e-cigarettes).
I would like to ask you to clarify one point about the Tobacco Act 2021 and the restrictions related with it.

As far as I could see, Estonian legislation only allows tobacco and menthol flavorings, but I couldnt find a list of flavorings (ingridients) that create the smell or taste of tobacco and that are allowed to be added to e-liquids and tobacco substitute products.
Does this exist?

Thank you very much in advance!
