Teema: Weekly West Nile Virus Surveillance Report

Tähelepanu! Tegemist on väljastpoolt asutust saabunud kirjaga. Tundmatu  
saatja korral palume linke ja faile mitte avada.  
ECDC NORMAL

Dear All,

The first weekly report for West Nile virus surveillance for the year has  
been published on the ECDC website. You can access the published report  
on the ECDC website through the following link: . Additionally, the  
interactive dashboard for West Nile virus transmission is available here:  
Thank you for your cooperation.

Regards,  
Mohammed  
On behalf of the EVD team at ECDC

and Alternates

Dear colleagues,

We hope this email finds you well.

As you are probably aware, the first human West Nile virus infection of 2024 has already been reported by Spain, and we plan to begin weekly data calls from the week 23. We are currently working on some improvements to the reporting and the dashboard. This year, on a weekly basis, we will provide a report and a dashboard summarizing the regions reporting human WNV infections in the EU/EEA and neighbouring countries. Additionally, we will issue a monthly report that includes more information on and further analysis of the human data, next to historical data and animal data.

We would like to highlight a few important issues:

The weekly reporting deadline in TESSy for cases to be included in the update on Friday is Wednesday 20.00 CEST/CET;

We kindly ask you not to change the case IDs during the year;

Please make sure to update the caseID with 2024 in case you use year numbers in the IDs;

Please report cases that acquired the infection in an Outermost Region or an EU Overseas Country or Territory as imported;

Thanks and best regards,

For the EVD-team,  
Mohammed Afzal
