**Subject:** FW: EST regional stations  
**Importance:** High

Dear Merilin,

As was discussed in the meeting last Friday, RBR and CCS Engineer reviewed the size of the technical room for CCS equipment proposed by the Regional station designer in the regional station buildings.

**We confirm that the estimate of 33 m2 is correct.**

Therefore please discuss in a next meeting with the Regional station designer the possibility to optimise room allocation and foresee 33 m2 for CCS technical room.

If further support needed from our side – please give me know.

Kind regards,

**Andrejs Mislēvičs | RB Rail AS**

Deputy Head of S&O/Signalling and Communications Team Leader | +37126579657

**Subject:** EST regional stations

Hi!

As agreed, below is a text about technical rooms in Estonian regional stations.

All equipment listed by CCS engineer must be placed in the station technical room. The 33 m2 room is sufficient for this task. Dimensions of the room can be reduced in exceptional cases by agreement with CCS engineer. In case it is impossible to provide the required space in a station building construction of separate technical building will be required.

Regards
