Subject: Ministry's inquiry about the ownership of property in Finland by foreign nationals

Importance: High

Dear Sir or Madam,

I hope you could help me find the right person to address this inquiry.

We have been asked by our Ministry of Foreign Affairs to consult about the following:

Under what conditions are foreigners (natural persons, legal persons, foreign states) allowed to acquire ownership of properties (land, agricultural land, buildings)?

As I understand, this could fall under your area of responsibilities, therefore, I would like to ask for a brief explanation on the matter, if possible along with links to the respective legislation.

I have found the following, that could be related, however, I am sure, there could be more to the issue:

- <https://www.riigiteataja.ee/en/eli/523102017002/consolide>
- Restrictions on Acquisition of Immovables Act (KAOKS)

I would appreciate your response at the earliest convenience, since we would like to complete the inquiry by end of this week, if only possible.

Thank you very much,

Sincerely,

Petra Petrovičová
