

Mr Erkki Keldo
Minister of Economy and Industry
of the Republic of Estonia
Suur-Ameerika 1, 10122 Tallinn

Courbevoie, May 26th, 2026

Subject: Invitation to Speak at the Opening Keynote of **One Univers Paris, (AI x Energy)** to be held on June 17, 2026 at 4:30 PM at the Noti Club (moored barge), 6 Port de Suffren, Paris 75007

Dear Mr Erkki Keldo,

I have the honor of inviting you to deliver the opening keynote at **One Univers Paris** (<https://univers.com/event/one-univers-2026-paris/>, held in parallel with **VivaTech**, where we will also be present), the flagship event of Univers, a global leader in AI-powered solutions for renewable energy (1,000 GW), battery storage (40 GWh), and energy management for commercial and industrial buildings (with over 500 million connected devices on the Univers EnOS platform).

The founder of Univers is also a major investor in France & Europe, notably following the *Choose France* 2021 announcement of €2 billion in investments, including the AESC battery manufacturing facility in Douai, which supplies batteries for the Renault 5 and 4. Also through Battery Cells Manufacturing plants in UK and Spain as well as active deployment of BESS stationary Batteries everywhere in Europe.

Your keynote address will be alongside the ministerial intervention of **France** and several European countries (**Germany, Lithuania**, currently being confirmed).

This gathering will bring together a selective C-level audience of approximately one hundred senior leaders from both the public and private sectors to exchange views on the role of **artificial intelligence in the energy transition**, as well as in the transformation of European economies and infrastructures.

The previous **One Univers** edition in **London** welcomed British ministerial speakers alongside prominent private sector leaders, including Matt Clare, CEO of Masdar Arlington, and Noelle Fröhlich, Executive Director of Clean Operations at DHL.

The **Singapore** edition similarly brought together Ministers of Energy and Digital, AI Affairs.

The **Paris** edition, taking place during VivaTech week, promises to be equally compelling.

Univers will also be present at **VivaTech**, alongside its strategic partners, Envision and AESC, at Hall 7 (Stand 3D14), where I would be most pleased to welcome you.

I would be deeply honored by your presence at this inspiring and forward-looking event.

Yours sincerely,

Maher CHEBBO | MD, Board Advisor Europe
