## Status of implementation of the European Disability Card (Directive 2841/2024)

Dear Minister Karmen Joller,

as part of our ongoing commitment to promote inclusion and equal opportunities for persons with disabilities across the European Union, I am writing to request a short report on the status of the implementation of the European Disability Card (Directive 2841/2024) in Estonia.

The following aspects are of particular interest to us and the disability community, and we would be grateful if you could take them into consideration:

- 1. Legal transposition** – Is the regulation being implemented into national law? Please indicate the expected date of adoption.
- 2. Issuing infrastructure** – Status of physical and/or digital card issuance (e.g., number of cards already issued, systems in place, integration with national e-ID).
- 3. Public awareness** – Any campaigns, multilingual materials, or stakeholder consultations that have been launched or are planned.
- 4. Challenges & support needs** – Identify any administrative, technical, or budgetary obstacles and indicate whether EU-level assistance (funding, expertise, best-practice sharing) would be helpful.

Kindly send us your status report to [katrin.langensiepen@europarl.europa.eu](mailto:katrin.langensiepen@europarl.europa.eu).

As one of the few Members of the European Parliament with a visible disability, I have a particular interest in the concerns of people with disabilities and in the implementation of their relevant rights.

In order to gain an initial overview of the current situation in your country and within the Union, I would be grateful if you could take the time to provide a detailed response.

Thank you very much for your support and commitment to the concerns of the many people with disabilities.

Yours sincerely,

Katrin Langensiepen
