**Estonian Transport Administration request  
for information**

Dear Colleague,

My name is Viktor Popov, Aviation Safety Advisor at Estonian Transport Administration. We are writing with regard to the occurrence with SmartLynx Airline Estonia OÜ aircraft (ES-SAD) which took place on October, 6 2024 at VECC (CCU) Calcutta aerodrome. The SmartLynx Estonia company was conducting the flight 6E958 (callsign IGO37N) for the partner airline IndiGO and reported „Runway Incursion - Communication with ATC“ occurrence. The report is registered in the European ECCAIRS2 system, its ID is OC-000000006218467.

SmartLynx Airline Estonia has investigated the occurrence internally and provided the results of investigation. As Competent Authority we have to evaluate the results of the investigation and assess the crew performance during departure. Would it be possible to provide us with the extract from the communication between Pilot and Air Traffic Controller. We would also appreciate to receive the radar picture if possible.

We thank you in advance for the support and cooperation!

Yours sincerely

Viktor Popov  
Aviation Safety Advisor  
Safety and Management System Department
