

Annex 1: Template for reporting national employment targets for persons with disabilities

Please duplicate the below for each different target in case more than one target is set, (for example % of an increase in employment, or an absolute number of employed persons with disabilities, or a reduction of the disability employment gap); or sub-target in case a sub-target is set per, for example, different groups of persons with disabilities based on gender, age, or by different employment options, such as public or private sector, etc.)

1. Target n° X and name:

...

2. Stage of adoption:

Adopted / discussed / planned / other (please specify which stage in the process for each target listed under point 1)

...

3. Description of the involvement of stakeholders (including the different ministries/public agencies) in the adoption process:

...

4. Description of the target:

4.1. Indicator used (please select one):

	Employment rate of persons with disabilities (please indicate here the data source, for example: LFS)
	Disability employment gap: (YES / NO)
	Other
	None

4.2. Available disaggregation in the indicator used:

	By severity of disability
	By type of employment (notably: sheltered vs. open labour market)
	By gender
	Others
	None

4.3. Precise description of the target, including the indicators used and (main) measures envisaged to reach it:

...

5. Monitoring and evaluation mechanisms envisaged (including stakeholders' involvement if any):

...
