Dear General Syrskii,

On the Ukrainian Independence Day, let me wish you, the Armed Forces of Ukraine and all Ukrainian people strength, nerve and patience on your path to victory.

Our fight takes more time than we hope or wish, and it demands more patience than we are used to. Nevertheless, do not get weary, and be aware that Estonia will stand by Ukraine till your victory.

Please accept my best wishes and compliments to all brave Ukrainian people on your special day.

Yours sincerely,

Andrus Merilo  
Major General  
Commander of the Estonian Defence Forces
