Invitation to Visit Estonia

Dear Ms Jestin,

Following our recent meeting at Hannover Messe, I would like to extend my warmest regards and formally invite you to visit Estonia.

Our discussions highlighted the strong mutual interest in deepening cooperation between Estonia and Airbus - particularly in the fields of aerospace, digital innovation, and sustainable development. Estonia's leadership in digital transformation offers a foundation for collaboration across both the public and private sectors.

We would be delighted to host you for an official visit to Estonia, during which we can:

- Build on the momentum established during our recent high-level discussions
- Explore joint opportunities in digital aerospace technologies, cybersecurity, and automation
- Facilitate meetings with key stakeholders from government, industry, and Estonia's dynamic digital innovation community

One particularly timely opportunity to visit is during the **Tallinn Digital Summit 9–10 October** under the theme:

Collectively at the Crossroads: Towards Secure and Resilient AI Futures.

The Tallinn Digital Summit (TDS), hosted by the Prime Minister of Estonia, is a premier forum bringing together global leaders in politics, technology, business, and security.

The summit will feature high-level discussions, keynote speeches, and an extensive bilateral programme fostering cross-sectoral engagement. TDS 2025 will also coincide with the Arraiolos Group meeting, chaired by the President of Estonia, and the ministerial meeting of the **Freedom Online Coalition**, which Estonia chairs in 2025.

Official invitation from TDS organizers will follow.

Please let us know of your availability to visit Tallinn during the Summit or at another convenient time. We are happy to coordinate a programme tailored to your strategic interests and ensure a productive and inspiring visit.

We look forward to the opportunity of welcoming you to Estonia.

With best regards,

A handwritten signature in blue ink, appearing to read 'Erkki Keldo', with a long horizontal line extending to the right.

Erkki Keldo
Minister of Economy and Industry
