Radar and passive radar system/sensors become operational
Removal of the height restriction on offshore wind turbines in the Gulf of Riga and Estonian islands Hiiumaa, Saaremaa
Contract signed for building of the vessel
Works contracts for the construction of Rail Baltic viaducts
Viaducts completed
Signature of the contract for the construction of TERVIKUM
TERVIKUM constructed
Publication of the call for proposals to support local authorities
Entry into force of the amendments to the relevant laws streamlining permitting, planning and environmental impact assessment
Governmental decision establishing priority development areas for wind energy
Support to local authorities
Signature of the co-financing agreement for electricity distribution network works
Construction finished and additional 160 MW capacity available
Call for applications for grants to support the uptake of biomethane
Independent survey identifying the necessary regulatory, organizational and financial interventions
Development of an action plan for the production and deployment of biogas and biomethane

Description

A call for proposals to support the digital transformation of businesses, together with the award criteria, shall be published by the Ministry of Economic Affairs and Communications.

Number of enterprises to which grants shall be awarded by the Ministry of Economic Affairs and Communications.

Number of enterprises to which grants shall be awarded by the Ministry of Economic Affairs and Communications.

The work on the adoption of international standards and best practices for the use of digital technologies in construction shall be completed.

The public services provided for in the e-construction development plan shall be developed, operational and made available to the public.

Number of completed projects for development and/or implementation of digital construction tools and prototypes.

Number of projects developing an eFTI platform which have received a positive grant decision.

Number of projects enabling transport and logistics operators to be connected to eFTI platforms and use eCMR within the EU.

Number of eFTI and eCMR projects completed, contributing to the deployment of digital waybills.

The secondary legislation necessary for the application and allocation of support shall enter into force. The conditions for granting support shall be enacted by a decree of the responsible minister. The requirements for the projects shall be set out in the call for proposals.

Number of people enrolled in training activities supported under this measure, consisting of awareness-raising for SMEs and training for ICT specialists.

Number of upskilling and retraining modules developed with detailed training content, structure and training materials.

Number of established qualification standards for ICT specialists from the national register of qualification standards.

The preparatory tasks needed to draw up export strategies shall be completed. These tasks include:- an analysis of the export potential of Estonian SMEs, a preparatory analysis allowing the definition of the content and the locations of the business centres shall be prepared, a preparatory analysis allowing the definition of the content and the locations of the business centres shall be prepared.

Tenders for drawing up strategies and product packages with a view to obtaining detailed market information on the export potential of Estonian SMEs shall be published.

A preparatory analysis allowing the definition of the content and the locations of the business centres shall be prepared.

Based on an analysis, the Ministry of Foreign Affairs shall select global digital mission destinations and impact goals.

The Ministry of the Environment shall reform the existing Working Group on Green Technology (set up in 2020) into a permanent body.

The Green Transition Task Force shall review the existing Circular Economy activities and different action plans into a permanent body.

The secondary legislation necessary for the application and allocation of support shall enter into force. It shall contain the conditions for granting support and the requirements for the projects.

Number of upskilling and retraining modules developed including detailed training content, structure and training materials.

A project manager shall be recruited and a broad-based group of stakeholders shall be set up to coordinate investment and the implementation of the plan.

The public procurement processes for at least 5 development clusters shall be completed and the contracts shall be signed.

The conditions for granting support shall be enacted by a decree of the responsible minister. The requirements for the projects shall be set out in the call for proposals.

Projects having received a grant disbursement in accordance with the eligibility conditions set out in the call for proposals shall be completed.

Call for proposals to support resource-efficient green technologies and the valorisation of bio-resources shall be published.

Award of grants to 36 projects selected under the competitive call for proposals, for green technologies for industrial and service sectors.

A contractual agreement shall be signed between the Ministry of Economic Affairs and Communications and SmartCap.

SmartCap shall adopt the investment policy for the Green Fund, in line with the contractual agreement signed between the Ministry of Economic Affairs and Communications and SmartCap.

At least EUR 55 million (excluding operating expenditures) shall be invested by the Green Fund in venture capital financing.

Development of project selection criteria, and entry into force of the ministerial decree on the conditions for granting support.

The necessary equipment for green hydrogen production shall be purchased, installed and put in operation by the end of 2025.

Creation of a Data Management Team in Statistics Estonia through the recruitment of expert staff tasked with coordinating the data management activities.

Number of completed projects contributing to ensuring an improved reusability of data from public institutions, within the framework of the National Open Data Portal.

The number of datasets made public on the National Open Data Portal and thus available from the EU Open Data Portal.

Number of citizen life event services and/or proactive services launched online. The corresponding IT solutions enabling the services shall be developed.

Number of citizen life event services and/or proactive services launched online. The corresponding IT solutions enabling the services shall be developed.

Number of IT development projects contributing to the implementation of the business event services and gateways.

Number of IT development projects contributing to the implementation of the business event services and gateways.

Number of digital public services available through the platform of the virtual assistant.

Number of service environments in which the virtual assistant shall be operational. A “service environment” refers to a set of digital public services available through the platform of the virtual assistant.

Number of digital public services available through the platform of the virtual assistant.

Basic IT services provided/shared centrally shall open for subscription by new users (ministries and other authorities).

Number of information systems for which the migration to the private cloud infrastructure shall be completed.

It shall become possible to host and operate information systems migrated to the private cloud from the data embassy.

Number of critical systems migrated to the National Cloud Data Embassy infrastructure and platform. Critical systems shall be migrated to the National Cloud Data Embassy infrastructure and platform.

Number of comprehensive security tests carried out by the Information System Authority – the test results shall be published.

The following steps shall be completed to allow the Centre for Strategic Analysis to access and process data relevant to the security of critical information systems:

- Number of new sites (residential, companies, establishments) covered by VHCN (and which have thus the possibility to be covered by VHCN) shall be increased by 10%.
- Number of additional sites (residential, companies, establishments) covered by VHCN (and which have thus the possibility to be covered by VHCN) shall be increased by 10%.
- Conclusion of a cooperation agreement by SA KredEx/Enterprise Estonia with county development centers by which SA KredEx/Enterprise Estonia shall update the Housing homepage to ensure fast, up-to-date and operational information.
- SA KredEx/Enterprise Estonia shall publish calls for applications aimed at improving the energy efficiency of residential buildings.
- At least 2 600 dwellings shall be renovated and achieve an improvement of at least one energy efficiency class or, in the case of companies, SA KredEx/Enterprise Estonia shall publish calls for applications aimed at improving the energy efficiency of private buildings.
- At least 80 dwellings shall be renovated, and achieve an improvement of energy efficiency or, in the case of companies, SA KredEx/Enterprise Estonia shall publish calls for applications aimed at improving the energy efficiency of private buildings.
- At least 900 dwellings shall be renovated and achieve an improvement of energy efficiency or, in the case of companies, SA KredEx/Enterprise Estonia shall publish calls for applications aimed at improving the energy efficiency of private buildings.

The Government shall adopt a decision on making the necessary investments to alleviate the defence related heightening of the defence costs.

Government decision on initiating the preparation process of the National Development Plan of the Energy Sector.

Guidance materials necessary for facilitating and incentivising the installation of renewable energy generating installations.

The National Development Plan of the Energy Sector shall be approved by the Government. The plan shall include:

- A co-financing agreement for electricity network investments shall be concluded between the Ministry of Economic Affairs and the Ministry of Energy.
- An open call shall be published by the Environmental Investment Centre to support the grid connection costs of community energy storage projects.
- An open call for proposals shall be published by the Environmental Investment Centre to support energy storage projects.

The Transport and Mobility Development Plan 2021-2035 shall be approved by the Government. It shall include the following:

- The implementation plan shall be approved by the Steering Committee of the Transport and Mobility Development Plan.
- Tallinn Urban Planning and Utilities Board shall adopt the design of the tramway construction project.
- Works contract concluded between Tallinn Urban Planning and Utilities Board and the contractor for the construction of the tramway.
- The tramway section of 2500 meters in length shall be completed and put into service in accordance with the letter of intent.
- An open call for investment by municipalities in bike- and walkways shall be published.
- At least 24 kilometres of bike and walkways shall be built as a result of the support scheme. These shall generally be built in the urban environment.

Entry into force of the Government Order which shall:-lay down the list of regional, central, local and rehabilitation projects.

The Strategic Framework for addressing health workforce shortages shall outline:- measures on the organisation of health services.

Entry into force of the Decrees of the Minister of Health and Labour which shall improve the reimbursement system for health services.

The admission of persons to nursing training has been increased by 5% compared to 2020.

Entry into force of the Decree of the Minister of Health and Labour and the amendment to the Health Services Organisation Act which shall improve the access to specialised care by extending the use of specialised care services.

Legislative amendments shall enter into force providing for the financing of fixed costs and services for general practitioners.

Entry into force of the amendments to Health Services Organisation Act which shall amend the management of the health services.

Approval of the proposal on the Governance Framework and implementation roadmap which shall update the governance framework.

Entry into force of the Decree of the Minister of Health and Labour which shall define the characteristics of the social services.

- At least 3 178 young people aged 16-29 have participated in the “My First Job” scheme (cumulative number of employees).
- Entry into force of the amendments to the Act which shall lay down a permanent mechanism to activate the external labour market.
- Entry into force of legislative amendments to the Social Welfare Act which shall lay down the concept of long-term care.
- The Ministry of Social Affairs shall adopt an Action Plan that provides for the establishment of an integrated care system.
- The Decree of the Minister of Social Protection shall define the design and characteristics of services by local authorities.
- Entry into force of legislative amendments which shall provide for the modernisation and integration of services for long-term care.
- The Plan shall outline the measures to reduce the gender pay gap.

A prototype of a gender pay gap tool for employers shall be developed with the aim of providing them with data and information.

The digital gender pay gap tool shall be available to employers with the aim of providing them with data and information.

Entry into force of the regulation establishing the legal framework for the implementation and monitoring of the gender pay gap tool.

A call for proposals to support investment projects for the transition of companies from fossil energy sources to a sustainable energy source.

At least 70 projects awarded support for investments for the transition of companies from fossil energy sources to renewable energy sources.

Contracts signed for the detailed design, air surveillance radar, passive radar system/sensors, civil engineering works.

The radar and passive radar system/sensors shall be operational.

A Notice issued by the Ministry of Defence and published on its website, stating that the height restrictions on off-shore wind farms shall be lifted.

The contract for the building of the multifunctional work vessel shall be signed by the contractor and the National Development and Planning Centre.

Works contracts signed for the following Rail Baltic viaducts: Kangru viaduct, Raudalu viaduct, Raku viaduct, Märra viaduct.

The construction of the following Rail Baltic viaducts has been completed and accepted by the contracting authority Riigi Kinnisvara AS (the representative of the Viljandi Haigla) and the contractor shall sign a contract for the construction of the TERVIKUM consisting of a general hospital and primary health care center, shall be completed.

A call for proposals shall be published to support local authorities to hire experts or procure services aimed at improving the efficiency of the permitting, planning and environmental impact assessment processes for wind energy projects.

The government shall adopt a decision establishing wind energy priority development areas. The government shall ensure that at least 20 local authorities shall have received support on the basis of the call for proposals to hire experts or procure services.

Signature of the co-financing agreement, for electricity distribution network works, between the Ministry of Economic Affairs and the Ministry of Environment.

Electricity distribution network works shall be completed and result in an increase in the capacity of the electricity distribution network.

Publication of a call for applications for grants to support the uptake of sustainable biomethane in line with the Renewable Energy Act.

The final report on the independent survey identifying the necessary regulatory, organisational and financial interventions for the production and deployment of sustainable biogas and sustainable bioenergy shall be published.

The government shall approve the action plan for the production and deployment of sustainable biogas and sustainable bioenergy.

The final report on the independent survey identifying the necessary regulatory, organisational and financial inter

Justification

Regulation entered in force 22.08.2022, call for proposals opened 31.08.2022. The precise evaluation criteria of the 118 projects (117 unique enterprises) have been financed.

As of March 31st a total 198 enterprises have received a positive grant decision.

In the 4th quarter of 2024, a national guideline has been prepared for the regulation "Requirements for a construction milestone". Several elements of the milestone are in works or already published on e-construction platform <https://eehitus.ee>

In total 6 projects developing an eFTI platform have received a positive grant decision.

There has been challenges with target group engagement, as they are hesitant to invest in activities that do not offer a clear return. Achievement is linked with T7 (completed) and T8 (please see justifications provided under the target 8). Action 1, OSKA report about labour force needs in ICT sector is approved and published. Ministry of Education and Research has started ICT training. There were some issues with public procurement (one of the tenders was annulled) and tenders for ICT training were completed. For curricula development the principles the Ministry of Education has created an action plan. Agreements have been signed with relevant organizations. The qualification standards for ICT specialists are gradually being renewed during 2024 and the activities are carried out. Meetings regarding Smart Advice for Entrepreneurs ("tark nõuanne" in Estonian) were held with relevant organizations. Tenders are completed and partners are found for creating 13 country / region strategies and product packages. Preparatory analysis, where we defined the content and the locations of the business centres, has been delivered. Analytical Report "Global export impact groups and missions in support of competitiveness of enterprises in foreign markets" is completed. Milestone is completed and all the substantive activities are in schedule, different regulations are being prepared. Based on the different strategic documents, the Ministry of the Environment prepared the Circular Economy Action Plan. OSKA report about labour force needs in green skills approved. Ministry of Education and Research and KUTSEKOI have developed 5 study modules. Highschools, vocational schools and vocational training unions have created action plans. A project manager has been recruited and a broad-based group of stakeholders has been set up to coordinate involvement. The public procurement processes for 5 development clusters are completed and the contracts signed with the winners. With some delay in the originally set target date, the Regulation of Minister of Entrepreneurship and Information Technology Grant is targeted to manufacturing companies to modernize their business models and adapt circular economy principles. Resource-efficient green technologies: Call for proposals for enterprises to support resource-efficient green technologies. Target completed.

Agreement on the financing of equity investments and the subscription of SmartCap Green Fund units. The document has been approved. These rules have been approved by the resolution of the supervisory board of AS SmartCap on 9.12.2021.

In total, investments have been made into 16 companies amounting to €41,621,686.83. During the first quarter, €1,000,000 was invested. The regulation of the Minister of Economic Affairs and Communications setting up the conditions for granting the measure is currently under negotiation with the Commission as part of the NRRP addendum. Data Management Team has been created and has started working on data governance, open data and data-reuse. At the end of 2024, a universal machine interface (API) for the open data portal was launched, enabling institutions to access data. At the end of 2024, a universal machine interface (API) for the open data portal was launched, enabling institutions to access data. Two services launched (marriage application, birth of baby)

Development plan for personal life event services in Estonia consists levels 0-III service levels. 0 - onboarding, I - in development, II - in development, III - in development. Eesti.ee for entrepreneur is accessible in live from 29.11.2022 - existing services transferred from the old portal, e-Residency. As of today there are 6 services on live. Next up in June should go live "Business Permits and Economic Activity Notification". The virtual assistant (Bürokratt) is available on Consumer Protection and Technical Regulatory Authority webpage. The contracts have been signed with 19 clients: Police and Border Guard Board, Consumer Protection and Technical Regulatory Authority.

Information about the organisation on www.rit.ee

10 information systems have been migrated to the private cloud infrastructure

The development of the extension of the national private cloud to the infrastructure of Estonia's data embassy has started. 11 systems have been migrated into the National Cloud data embassy.

Testing is being carried out, all activities are on schedule.

The amendments of the Money Laundering and Terrorist Financing Prevention Act have been presented to the Parliament. The Estonian RRP addendum proposes the postponement of milestone by one year is needed, due to the unexpected. Fourteen projects have been completed. In addition, 10 more reports (353 residential units) have been submitted, SA KredEx/Enterprise Estonia has set up the network with 14 county development centers. Also, more consultants. Two digital tools have been developed. The first tool is the Cost Assessment Calculator (Rekonstrueerimise kulude Ministry of Economic Affairs and Communication prepared a necessary regulation for the call in 2020 and SA KredEx/Enterprise Estonia has set up the network with 14 county development centers. Also, more consultants. As of 31.03.2025, the full renovation of 83 apartment building has been completed (the number of apartments is 1000). Ministry of Economic Affairs and Communication prepared a necessary regulation for the call and SA KredEx/Enterprise Estonia has set up the network with 14 county development centers. Also, more consultants. The target includes full renovation of 57 small residential houses and 23 partial renovations.

As of 31.03.2025, 423 projects have been completed.

Milestone was achieved on time. <https://www.mkm.ee/et/uudised/uuendatav-ohuseiresusteem-lihtsustab-uute-t>
The decision was adopted to start preparation process of the National Development Plan of the Energy Sector. In March 2023. Guidance materials are completed.

The National Development Plan of the Energy Sector will be presented for approval in Government in 2025.

Co-financing agreement signed on 28.02.2022

The regulation of the Minister of Economic Affairs and Communications setting up the conditions for granting support. The regulation of the Minister of Economic Affairs and Communications setting up the conditions for granting support. Transport and Mobility Development Plan 2021-2035 is approved by the Government and published

The implementation plan for green sustainable public transport development of the Transport and Mobility Development Plan 2021-2035 is approved by the Government and published. The technical project for tramline construction was submitted for approval by the city on 23.10.2021 forming contract. The milestone have been achieved. The contract information is provided in National Tender Database, please see: Tramway was opened to public use on 01.12.2024.

The Regulation of Minister of Public Administration on terms and conditions for measure "Municipalities' investment. The target has been achieved, covernote presented to the COM.

The Government Order on the Hospital Network Development Roadmap by 2040 is available; the Order of the Minister of Health and Labour is available. The document named „Tervishoiutöötajate nappuse leevendamise strateegiline raamistik“ is available in Estonian. The amendments to the Health Services Organisation Act <https://www.riigiteataja.ee/en/eli/514072022003/consolidated>
According to the Consensus Agreement signed on 18.02.2022 the number of persons admitted to nursing training. The amendments to the Health Services Organisation Act <https://www.riigiteataja.ee/en/eli/514072022003/consolidated>
Current regulation: <https://www.riigiteataja.ee/akt/126062021006> Adding more specialties is in progress.

Current regulation: <https://www.riigiteataja.ee/akt/126062021006>

Justification: With the legislative amendments it is possible for specialists to apply for the beginner's allowance with the work is successfully finished. All the documents (the Adopted eHealth Governance Framework, the Analysis of the Decree of the Minister of Health and Labour is signed on 17 March 2022 and is in force. The beneficiary and the adopted action plan is available on the website of the Ministry of Social Affairs: <https://sm.ee/noortegarantii>.

In 2024, the Unemployment Insurance Fund began offering online seminars to young people aged 15-29 to develop the Act amending the Unemployment Insurance Act, the Labour Market Services and Benefits Act and the Work Act. Amended Social Welfare Act is in force and available in the Official Journal of Estonia: <https://www.riigiteataja.ee>.

It was decided to include the topic of care coordination into the second part of the long-term care legislative initiative. The Regulation of the Minister of Social Protection with its three Annexes is available in the Official Journal in Estonian. The Child Protection Act from 10.01.2025 <https://www.riigiteataja.ee/en/eli/506022025003/consolidated>, the Act amending the Child Protection Act. The adopted Welfare Development Plan is available on the webpage of the Ministry of Social Affairs <https://www.sma.ee>. The prototype exists and is situated in closed server (Statics Estonia's) – it is not public since it does not follow design. The work is completed.

Government of Estonia adopted the regulation establishing the legal framework for the implementation and monitoring. Call for proposals is opened on EAS webpage: <https://eas.ee/grants/varustuskindlus/>

After the publication of the call for proposals, a total of 133 projects (114 unique enterprises) have been awarded
