5.2 Jacket

CCJ | CARINTHIA COMBAT JACKET

The centerpiece of the Carinthia Combat Garment series is the Combat Jacket. A stable and well-fitting uniform jacket made of a modern material mix for use in the field. Extensively processed stretch material in the outer fabric allows maximum freedom of movement. Stable stand-up collar with the option to attach our Carinthia Combat Hood. Pre-shaped sleeve construction increases comfort and facilitates quick movement. Cordura reinforced shoulder and elbow area to reduce pressure points and provide high resistance to typical stresses in the field. Chest pockets with access on both sides facilitate access when carrying protective equipment, rigs or backpack. Napoleon interior pockets made of air-permeable mesh material. For safekeeping of important documents, maps, smartphone and identification papers, the pocket pouches of the upper arm pockets are made of waterproof material. Generous Velcro areas for troop insignia or similar. With Velcro fastening the Carinthia Combat Hood is easily adaptable for Combat Shirt and Combat Jacket and is characterised by its windbreaker function. The small pack size makes the Carinthia Combat Hood easy to stow.
