

**List of medicines and medical devices for the treatment of cardiovascular diseases**

Treatment area	Position name	Dosage form	Dosage	Units of measurement	Needed quantity
Cardiovascular diseases	Hemoconcentrator for children under 15 kg	kits		kit	<b>35</b>
Cardiovascular diseases	Cardioverter-defibrillator with cardiac resynchronization therap	kits		kit	<b>128</b>
Cardiovascular diseases	ACT (Activated Clotting Time) test device kit	kits		kit	<b>160</b>
Cardiovascular diseases	Cannula set for cardiopulmonary bypass surgery	kits		kit	<b>23</b>
Cardiovascular diseases	Coronary guidewire for occlusion recanalization	units		units	<b>1 791</b>
Cardiovascular diseases	Local hemostatic surgical material for neurosurgical procedures: absorbable hemostatic fabric made of oxidized regenerated cellulose – 1 unit	units		units	<b>685</b>
Cardiovascular diseases	Medical device for embolization of cerebral arteriovenous malformations (includes microguidewire) - 1 unit	units		units	<b>63</b>
Cardiovascular diseases	Medical device for embolization of cerebral arteriovenous malformations (includes guide catheter) - 1 unit	units		units	<b>50</b>
Cardiovascular diseases	Medical device for endovascular embolization of cerebral aneurysms with detachable microcoils (includes microguidewire) - 1 unit	units		units	<b>310</b>
Cardiovascular diseases	Single-chamber, rate-adaptive cardiac pacemaker with automatic output amplitude regulation during ventricular pacing (SSIR)	kits		kit	<b>259</b>

Cardiovascular diseases	Oxygenator for neonates and infants up to 5 kg with low priming volume tubing set	kits		kit	<b>84</b>
Cardiovascular diseases	Cardiac resynchronization therapy device	kits		kit	<b>63</b>
Cardiovascular diseases	Reference electrode for navigation systems	kits		kit	<b>140</b>
Cardiovascular diseases	Cooling system for irrigated ablation catheters	units		units	<b>135</b>
Cardiovascular diseases	Drug eluting coronary stent system for standard lesions	units		unit	<b>3 533</b>
Cardiovascular diseases	Enoxaparin sodium	ampoules, vials, syringes	10,000 anti-Xa IU/ml	ml	<b>47 028</b>
Cardiovascular diseases	Milrinone	ampoules, vials	1 mg/ml	ml	<b>390</b>
Cardiovascular diseases	Hemostatic agent or device	patch/matrix with coating 9.5 × 4.8 cm or collagen pad 45 × 90 mm	human thrombin 2 IU/cm <sup>2</sup> + lyophilized human fibrinogen 5.5 mg/cm <sup>2</sup> OR bovine dermal collagen with NHS-PEG coating	patch, matrix, pad	<b>463</b>
Cardiovascular diseases	Iodinated contrast agents	ampoules, vials, syringes	50 ml (320 mg iodine/ml)	ampoules, vials, syringes	<b>8 292</b>
Cardiovascular diseases	Biological patch for pericardial and great vessel repair, sterile, size: not less than 110 × 80 mm; thickness: not more than 1 mm	units		units	<b>19</b>
Cardiovascular diseases	Coronary microcatheter – 1 unit	units		units	<b>30</b>
Cardiovascular diseases	Coronary cutting balloon catheter	units		unit	<b>60</b>
Cardiovascular diseases	Balloon catheter with drug coating	units		units	<b>100</b>
Cardiovascular diseases	Guide catheter extension device	units		units	<b>40</b>

Cardiovascular diseases	Cannula set for minimally invasive cardiac surgery with cardiopulmonary bypass	kits		kit	7
Cardiovascular diseases	Aortic heart valve bioprosthesis for transcatheter implantation	units		units	32
