Unmanned aerial vehicles

Dear Mr Semetskovsky and Mr Potuzak,

Estonian Ministry of the Interior appreciates the opportunity to know more about your company's profile and its unmanned aerial vehicles (hereinafter UAV). In our administrative field the aviation is administrated and organized by Police and Border Guard Board. At the moment we are in the process of preparing the aircraft developing vision document for the next 10 years. According to the draft of the vision in the next few years we have no procurement plans for medium or big size UAVs. Nevertheless for the further purchases we are pleased to save your company's profile to our potential suppliers list.

Sincerely,

Raino Sepp
Head of Asset Management Department
