**5** countries

# Digitalization of business processes allows to quickly scale our business

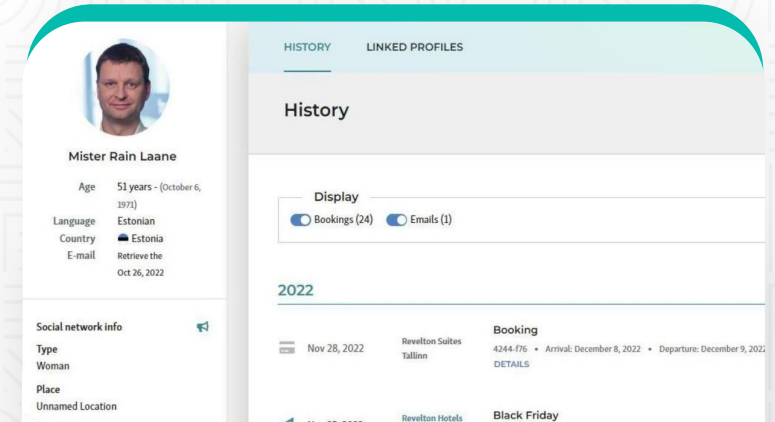

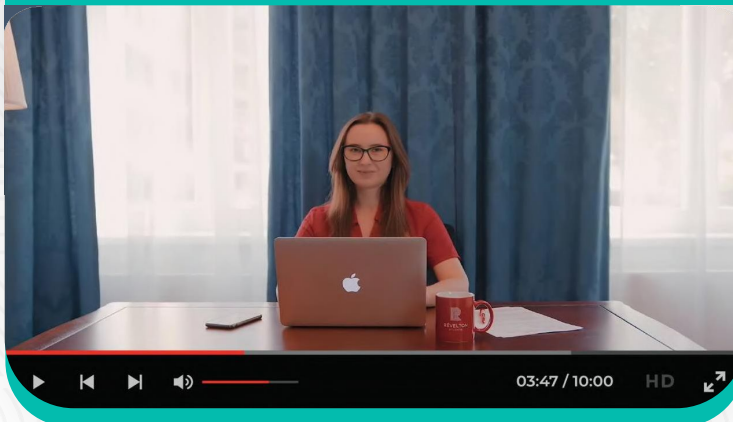

## Guest care

- In the online "care service" the guest waits for a response for less than 5 minutes, and responses to repeated messages are generated automatically
- A unique loyalty program

- Each new employee undergoes training in an online school and can start working in a minimum time
- Cloud Task manager allows to conduct key development projects online

## Personnel management

## Access to guest data

- CRM system adapted to our tasks allows to segment data and increase the percentage of loyal customers
- Key business indicators can be tracked in real time from any device

# Guests choose **Revelton** again and again

- The apartment has everything you might need during your stay

**9,7**  
average  
rating

- All our facilities are highly appreciated by guests and industry experts

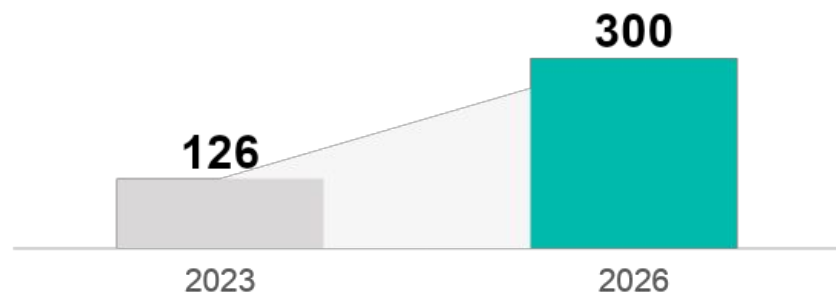

**Every fourth guest returns  
to Revelton twice or more**

# Our goals until 2026
