Invitation Letter to Latitude59 Conference in Estonia

Dear Eng.Said Al Mandhari,

Please allow me to extend to you my cordial greetings. Estonia and Oman have long enjoyed excellent bilateral relations, highlighted by economic and especially digital cooperation.

With a view to strengthening the cooperation between our two countries, especially in the area of technology, I am pleased to invite you to attend Latitude59 conference, which is the biggest and most innovative tech event in the region. Latitude59 will take place from **May 22nd to May 24th in Tallinn, Estonia.**

Latitude59 is a non-profit organization that is dedicated to impacting and driving change on various issues using the help of technology. Topics such as defence tech, climate change, sustainability, diversity & social justice, and economic development will be put on the spotlight.

We can achieve our goals by bringing together experts in these fields to share their insights and experiences. Latitude59 welcomes annually approximately 3500 attendees from 60+ countries, including 800+ investors and 500+ startup representatives, over 20 foreign delegations and up to 100 foreign journalists.

As a highly respected business and technology leader of the Sultanate of Oman, we would be delighted if you enriched the conference with your participation. It would give us an excellent chance to further exchange ideas and experiences on start-up ecosystems and investment climates in both countries as well as meet with several interests' groups with similar background.

Please follow the conference agenda from our website: <https://latitude59.ee/agenda/>

From our side Ms Anu Vask, Counsellor at the EU and International Cooperation Department (anu.vask@mkm) would be the main contact point for further communication.

With best regards,

Sandra Särav
Deputy Secretary General for Economy and Innovation
