

February 3, 2025

Dear Ms H. Laarmann, Head, Public Health Department, Ministry of Social Affairs,

Invitation — Worker Health — World Health Assembly Evening Reception: May 22nd

We would like to invite you to attend an evening reception with drinks and canapes from 5:30pm-8pm on May 22nd at the Intercontinental Hotel, Chemin du Petit Saconnex 7-9, 1209, Genève.

The International Occupational Medicine Society Collaborative (IOMSC) is a collaboration of more than 50 National Occupational Medicine Societies world-wide, whose 30,000 members strive to improve the health and safety of over a billion workers. IOMSC is a World Health Organization (WHO) global collaborating centre and works closely with the International Labour Organization (ILO).

We are delighted to have opening remarks from health leaders from WHO and ILO to share their perspectives on how business and health systems can support and improve workplace health. The reception will include brief comments as to priorities for Occupational and Worker Health identified during a prior thought leadership meeting.

There will be plenty of time to meet participants in a relaxed and informal setting from the World Health Assembly, Chief Medical Officers of large multinational employers, Academia and the World Economic Forum.

The reception is kindly sponsored by Enterprise Health and Benchmark Gensuite.

We do hope you will be able to join us for this reception.

Please RSVP whether you will be attending to rose.wood@som.org.uk

Sincerely,

Ronald R. Loeppke, MD, MPH, FACOEM
Co-Chair, IOMSC

Richard Heron, MD, FRCP, FFOM, FACOEM
Co-Chair, IOMSC
