Dear Colleagues,

We are pleased to share with you the attached Influenza virus characterisation data reported by national influenza reference laboratories to TESSy for weeks 40/2023 to 3/2024 report, which was submitted to the WHO Consultation on the Composition of Influenza Virus Vaccines for the use in the 2024-2025 northern hemisphere influenza season.

Please also find attached the phylogenetic trees as separate scalable .svg files. The report and trees have been uploaded to the .

We would like to thank the TESSy/EpiPulse and GISAID data contributors, the report drafting team and those of you who kindly agreed to review the report with a very short deadline!

And last but not least, we would like to thank all of you for reporting your virus characterisation data, all your efforts and the good collaboration during the 2023-2024 season! We look forward to continuing our work together with you.

Kind regards,

The ECDC and WHO/Europe Influenza Teams
