

Dear The Right Honourable Hanno PEVKUR, Minister of Defence of the Republic of Estonia

Dear Sir or Madam, it is nice to meet you. My name is Takuji Matsui. I am a Japanese man who is now 70 years old.

I had been concerned for some time about the future state of the world, and I had been doing research on the future state of the world. Then I came across a book that contained something very important. It said that "next year, in July 2025, there will be an explosion in the Philippine Sea, which will generate a huge tsunami that will wash over the countries surrounding the Pacific Ocean".

The author is a Japanese woman called Ryo Tatsuki. She published a book entitled 'The future I saw, the complete version, Ryo Tatsuki' in October 2021. She describes the scene she saw in her prophetic dream as follows. The giant tsunami that will hit the Philippine Sea in July 2025 will be three times the height of the Great East Japan Earthquake. 'The impact of that wave would push and raise the land, making it look as if Hong Kong, Taiwan and even the Philippines would be connected to the earth.' Also, the Pacific side of the Japanese archipelago, one third to one quarter of it, was swallowed by the massive tsunami."

The author also said that she firmly saw two words in her prophetic dream: 'July 2025' and 'great disaster', as well as 'the sight of a huge tsunami', etc. I believe that the two words she saw were a 'revelation' that 'the events she saw in the prophetic dream will happen in the real world'. And if these two words are a "revelation", then I believe that "in July 2025, there will be an explosion at the bottom of the Philippine Sea, causing a huge tsunami disaster", just as Creator of this world said.

I also studied the scenes described in the book and other detailed descriptions and depictions of the 'giant tsunami expected to occur in the Philippine Sea in July 2025'. As a result, I believe that if an explosion were to occur on the seabed, it would be caused by a "nuclear torpedo Poseidon" manufactured by the Russian government. And if this were to become a reality, the height of the giant tsunami would be expected to reach approximately 500 to 800 metres.

It seems to me that if the predicted catastrophe is to materialise, "two Russian nuclear torpedoes will be launched from the waters near the Hawaiian Islands on 4 July 2025". (4 July 2025 falls on United States Independence Day.) Two Russian nuclear torpedoes will reach the Philippine Sea and explode on 5 July 2025.

However, the authors of the book state that "we don't know if it is an undersea volcano or a bomb (that is the expected cause of the explosion)". The author also says: "If the day I dreamed about (5 July) comes true, then the next big disaster will be '5 July 2025'." She said.

I would like to introduce Ryo Tatsuki here. She had a mysterious experience when she was nine years old, after which she had numerous prophetic dreams. In her book, she introduces the fact that many of these precognitive dreams have happened in reality.

Ryo Tatsuki also predicted the occurrence of the "Great East Japan Earthquake" in her book "The Future I Saw", published in July 1999, with "The Great Disaster is in March 2011" depicted on the cover. She saw the two words 'catastrophe' and 'March 2011' and the 'sight of the tsunami' in her prophetic dream, which she said she saw clearly. And just as she saw in her prophetic dream, the Great East Japan Earthquake occurred in March 2011. This proves that the precognitive dream she saw happened in reality.

Ryo Tatsuki describes a scene he saw in a prophetic dream in his book. 'The Philippine Sea, south of the Nankai Trough, will rise up from below with a bokon and spread to the surrounding countries as a giant tsunami. The Pacific side of the Japanese archipelago, one third to one quarter of it, is swallowed by the massive tsunami. We also saw footage of two dragons somehow heading towards the epicentre.' 'Far to the east of that epicentre, on the ocean floor from near the date line to the Hawaiian Islands, I saw silhouettes like the two dragons I saw in my dream, two dragons diving into the epicentre of the Philippine Sea' (described in the new book, 'Weird').

To begin, I would like to state my opinion on "what do the two dragons mentioned in the book refer to?". After studying the book in detail, I believe that the two dragons refer to two nuclear torpedoes. I interpret this as: 'I saw two nuclear torpedoes being launched from the waters near the Hawaiian Islands, diving along the seabed towards the epicentre and then diving into the epicentre' and 'the underwater wake of the two nuclear torpedoes, diving along the seabed, looked like the silhouette of two dragons'.

Also, "nuclear submarines and the Russian nuclear torpedo Poseidon can submarine the seabed from the waters around the Hawaiian Islands to the Philippine Sea, a distance of about 6,000 kilometres". From this, I believe that the cause of the explosion on the seabed of the Philippine Sea was "the Russian nuclear torpedo Poseidon".

The nuclear torpedo Poseidon is an intercontinental torpedo powered by a nuclear engine. It has a cruising range of 10,000 kilometres and is a nuclear torpedo capable of submerging to a depth of 1,000 metres. This nuclear torpedo can cause a nuclear explosion under the sea, creating a giant tsunami more than 500 metres high.

The nuclear torpedo Poseidon is an intercontinental torpedo powered by a nuclear engine. It has a cruising range of 10,000 kilometres and is a nuclear torpedo capable of submerging to a depth of 1,000 metres. This nuclear torpedo causes a nuclear explosion under the sea, which creates a giant tsunami more than 500 metres high. Eight of these Nuclear Torpedo Poseidon are on board the nuclear submarine Belgorod. The Russian Government is planning and building a fleet of five nuclear submarines of the same type, including the nuclear submarine Belgorod, which it currently owns.

From the sights and detailed descriptions given in *The Future I Saw, The Complete Version*, I believe that "the cause of the explosion at the bottom of the Philippine Sea is a Russian nuclear torpedo, Poseidon." If this view of mine is correct, then "by next year, July 2025, the Russian government will expand the war around the world and launch a nuclear attack before or after". Because, previously, President Putin has hinted at a nuclear attack by Russia against the world, saying, "Yes, it will be destructive for humanity and the world". And the Russian government, I believe, "is trying to destroy the world".

The Russian Government has continued to develop, produce and deploy new nuclear weapons since 2000. These include the nuclear torpedo Poseidon. Currently, the Russian Government is constructing a base for the nuclear submarine Belgorod on the coast of the Kamchatka Peninsula. It is also working on a plan to create a division for nuclear-powered submarines and Belgorod by the end of 2024 and the first half of 2025.

From the words and actions of President Putin and the Russian government, I believe that the Russian government will complete its nuclear deployment plan for the world by the first half of 2025 and move to the implementation phase. I believe that "in July 2025, a Russian nuclear torpedo, Poseidon, will cause a nuclear explosion on the seabed of the Philippine Sea, creating a huge tsunami and destroying countries in the Pacific Ocean" is part of the Putin regime's nuclear strategy. It seems to me that it is.

There are also fears that other parts of the world could be hit by a huge tsunami caused by Russian nuclear torpedoes.

Here is what the President of the Russian Government, Vladimir Putin, has to say.

This is what President Putin said in the Russian documentary The World, Order 2018.

'If someone decides to destroy Russia, we have the legal right to fight against it. Yes, it would be destructive for humanity and the world. But I am a Russian citizen and head of state. If Russia doesn't exist in the world, why should the world?' 'Our submarines are capable of launching over 500 nuclear warheads, guaranteeing the destruction of the US and all NATO countries.'

Those who stand in our way will face consequences unparalleled in history." He stated.

President Putin has thus made this 'nuclear threat' statement to the people of the world. He has also hinted at a 'global nuclear attack' that would be 'destructive for humanity and the world due to a Russian nuclear strike.'

It is likely that the Russian Government will gradually expand its war against the world and move into the implementation phase, completing its nuclear deployment programme by the first half of 2025. From there, it is expected that President Putin "plans to conquer the world". And he may have the intention of "turning the world into a Russian colony". That is how it seems to me.

The Russian Government may trigger a nuclear explosion with a nuclear torpedo, Poseidon, in the Philippine Sea "next year, on 5 July 2025", creating a giant tsunami that could destroy countries in the Pacific Ocean and surrounding areas.

The author of "The Future I Saw, The Complete Version" told us about a "huge tsunami disaster" that she saw in a prophetic dream by way of a "revelation". She said: 'If it is to come true, it will happen on 5 July 2025'.

I hope you are reading this to help you escape and evacuate in advance from the huge tsunami that is expected to hit the Philippine Sea next year on 5 July 2025. I also believe that we need to have evacuation plans and preparations in place to deal with such an eventuality.

If, in the future, the Russian Government expands the conflict in Ukraine to a global war, I would like you to inform your people of the contents of my letter. And I hope that the people will be able to escape from this great calamity in advance.

Postscript Here I would like to introduce the "Alliance Defence 2025" prepared by the German Defence Ministry.

In it, President Vladimir Putin reveals the step-by-step possibility of escalating the conflict in Ukraine to an all-out war between Russia and NATO in about 18 months. The timeframe for the all-out war mentioned in the article is envisaged for next year, around July 2025.

Yours truly

8 Mar 2024

Takuji Matsui

Dear Sir or Madam. Nice to meet you. My name is Takuji Matsui. I am a Japanese man who is now 70 years old.

I am concerned about the future world situation, so I have been doing some research and investigation. I would like to talk about it. First of all, I would like to explain that President Putin "plans to conquer the world" and "intends to turn the world into a Russian colony."

President Putin has developed and produced a number of nuclear weapons over the past 24 years. The purpose seems to be to destroy the world, to conquer the world, and to make the world a Russian colony. This is well expressed in President Putin's statements in the past. And it is believed that he is planning to introduce a "universal military system" within Russia in order to carry out his "world domination. And the size of that Russian army is expected to be about 35 million, including the current reservists(25 million).

In reality, Russian government hired an additional 137,000 military personnel in August 2023. It then expanded the number of those eligible for conscription, raising the age of eligibility to 30 years old in March 2024, and the age at which a person becomes a reservist to 55 years old. The Russian government also plans to call up 300,000 reservists with military service experience. And a total of 260,000 conscripts are planned to be drafted in the spring and fall. The size of the Russian military in peacetime is estimated at 1 million soldiers and 900,000 civilians. In addition, the Russian government provides actual gun shooting training to Russian junior and senior high school students aged 14 and over as part of their school education for national defense.

President Putin is expected to take various steps to implement "Universal conscription" in Russia, appealing to the Russian people and promoting the necessity of such a system. The Russian government is also expected to gradually raise the draft age and move toward universal conscription. This year(2024), the Russian military will be reinforced, and the war in Ukraine may turn into a world war. This is because President Putin may expand the war in Ukraine this year to include a nuclear attack on the world. In reality, the Russian government has repeatedly conducted nuclear weapons training drills.

I believe that the most likely time for this is after the presidential election in the United States this November, from the end of December to early January 2025. this is because President Putin may take advantage of a gap in the United States' nuclear defenses to launch a nuclear attack. And it is likely that the Russian military offensive against the world will increase dramatically during this period. Given the Russian government's past military invasions of other countries, there are concerns that a military attack could occur during the New Year holidays.

In addition, the expected nuclear explosion of two Russian Poseidon nuclear torpedoes in the Philippine Sea on July 5, 2025, is believed to be part of a nuclear attack by the Russian government.

April 5, 2024

Takuji Matsui

Sincerely yours
