Subject: Barge Silur Seaworthiness certificate annual verification request

Dear Sirs.

Hereby we kindly ask the Estonian Maritime Authority to carry out an annual survey of the barge Silur Official Nr 787, IMO 7924059 flying the Estonian Flag in the port of Cuxhaven on 17th October.

We realize that the Seaworthiness Certificate annual survey is overdue. In order to avoid recurrence the certificates maintenance system will be amended respectively.

All Class surveys were carried out within relevant windows. The Class certificate is attached hereto.

We apologize for such a short notice and would appreciate your timely response taking into account the time available before the vessel planned departure on 17th LPM.

Many thanks in advance

—

Sincerely yours,

Eduard Postin / DPA
