Dear Colleagues and Friends,

You are invited to attend the Eleventh International Seminar on Fire and Explosion Hazards (11th ISFEH) in Rome, 15-20 June 2025. The Seminar is hosted by the Faculty of Civil and Industrial Engineering at Sapienza University of Rome.

This is the 30th anniversary of the ISFEH and we look forward to celebrating this milestone with you! The ISFEH is a long-standing tradition that brings together distinguished researchers from around the world. Since 1995, the International Symposium on Fire and Explosion Hazards has successfully been held in Moscow (1995, 1997), Lake Windermere (2000), Londonderry (2003), Edinburgh (2007), Leeds (2010), Providence (2013), Hefei (2016), St. Petersburg (2019), and Oslo (2022).

The seminar is an opportunity for participants to present new research, exchange information and discuss current issues in the broad areas of fire and explosion research, mitigation and prevention.

The 11th ISFEH will include invited lectures from leading researchers in the field and presentations of peer-reviewed papers. All accepted and presented papers will be included in the seminar proceedings. Poster sessions provide an excellent opportunity to discuss the latest research one-on-one. Students are encouraged to take part in these sessions and prizes will be awarded.

In addition to the scientific programme, Rome offers an ideal setting with countless popular attractions and hidden gems. Therefore, we invite you to attend the 11th ISFEH!
