

REPUBLIC OF ESTONIA
DEFENCE FORCES

Letter of Invitation

04.03.2024

It is my pleasure to invite EW-related practitioners and procurement delegations of your country to **Electronic Warfare Live 2024**, which will take place in **Tartu, Estonia** between **17-19 September 2024**.

This is the fifth edition of EWLive in Estonia and is organised in cooperation between Tangent Link, Estonian Ministry of Defence and Estonian Military Academy.

The event provides unique opportunities to assess equipment and capabilities in a live electromagnetic environment, allowing subject matter experts to witness the latest technologies in a realistic setting. The capabilities being demonstrated include EMSO, EW Training, C2/ISR, SUAS/UAS, Land system effects, Space-based EW capabilities and CUAS.

Event schedule:

17 September 2024 – EW Practitioners' Workshops organised with Association of the Old Crows (USA).

18-19 September 2024 – EWLive demonstrations and classrooms.

Further information on EWLive and list of confirmed demonstrating companies can be found at <https://tangentlink-events.com/ew-live>.

Registration to the event is available online <https://tangentlink-events.com/ew-live/register> or please contact Kate Niven kniven@tangentlink.com if you have any questions regarding participation.

I look forward to welcoming your delegation to Estonia in September 2024.

Vahur Karus
Brigadier General
Commandant of the Estonian Military Academy
