To the Committees responsible for energy affairs

2 September 2026

No. S-2026

## CONCERNING COOPERATION ON ENERGY AND REGIONAL POLICY

Dear Chairpersons of Energy Committees,

I am writing to you with a view to establishing and strengthening cooperation with the energy committees of the Parliaments of the European Union Member States. Please be informed that a new Committee on Energy and Sustainable Development was established at the Seimas of the Republic of Lithuania in April 2026.

Currently, energy policy is intertwined with the European Union's strategic priorities, namely, energy security, competitiveness, energy independence, green transition, and the development of a resilient energy infrastructure. We are convinced that close cooperation among the Parliaments of Member States, the sharing of best practice, and the search for common solutions are essential to achieving these objectives.

We would like to place particular emphasis on **regional cooperation**. In our view, the energy challenges and opportunities facing the Baltic Sea region and other European regions require a coordinated approach, particularly in enhancing the resilience of energy systems through the development of electricity interconnections, energy infrastructure, renewable energy sources, energy storage solutions, and the hydrogen economy.

We also wish to pursue a more active dialogue on the **European Union's regional policy and its links with energy policy**. We believe that EU funding instruments and regional development policy should contribute even more to the modernisation of energy infrastructure, the economic resilience of the regions, attracting of investment, and ensuring affordable energy prices.

We are willing to share Lithuania's experience and invite an exchange of practical insights on national solutions and initiatives. We believe that regular meetings of the chairpersons and members of parliamentary energy committees, joint debates, and expert dialogue could become an important platform for strengthening common European interests.

We look forward to your support and constructive cooperation, and we are ready to work together to identify specific forms of cooperation on energy, regional policy and other areas of mutual interest.

I am convinced that close cooperation among our parliamentary committees will contribute to the creation of a stronger, safer, more competitive and energy-resilient European Union.

Yours sincerely,

Algirdas Butkevičius  
Chair of the Committee
